PRICE LIST OF

NURSERY STOCK

SPECIALLY GROWN FOR  
EXPORTATION BY

Charles Détriché, Sr.

ANGERS, FRANCE

Jackson & Perkins Co.

Sole American Agents,

NEWARK, - NEW YORK

---

#### TERMS AND CONDITIONS OF SALE.

**Payments.** All accounts due net on June 1; 3 per cent. discount for settlement before January 31st; afterwards no discount allowed. Discounts are on cost of stock only—packing charges net. Remittances may be sent either to Mr. Detriche or to Jackson & Perkins Co. Unknown parties are respectfully requested to either send remittances with their orders or else furnish trade references.

All goods travel at the purchaser's risk after being put on rail at Angers. All quotations are taken at the nurseries, and do not include cost of boxes, freight, duties or expenses of importing, all of which are to be borne by the purchaser. Prices subject to change without notice. All orders subject to Mr. Detriche's acceptance and subject to pro-rata delivery in case of partial loss of crop from frosts, droughts, insects or any other uncontrollable causes.

**Expenses of importing.** We are usually able to save our customers considerable upon the expenses of importing. Excepting orders from eastern points, all shipments are combined in carload lots and sent through in bond to Rochester, N. Y. This enables the Jackson & Perkins Co. to attend personally to making customs entry, for which service no charge is made excepting actual expenditures. We also secure a very low freight rate from Angers direct to Rochester, avoiding all cartage charges in New York and nearly all the other fees and expenses that are usually levied on import shipments.

It is expressly understood that claims, if any, must be made immediately upon receipt of the shipment. Those made only sometime afterwards will not be taken into consideration.

---

The varieties here listed comprise only a part of the assortment grown by Mr. Détriché. For prices on other varieties apply to Jackson & Perkins Co.

## FRUIT TREE AND ROSE STOCKS

Prices subject to fluctuations.

The caliper or thickness of the stocks at the collar is given in millimeters, 25 m-m equaling an inch.

All rates quoted in dollars and cents.

5,000 of a kind at 10,000 rate, 50,000 at 100,000 rate.
